GALLOPADE

Discover Gallopade's exciting array of fantastic science resources!

At Gallopade, we love to see kids get excited about learning, especially when it comes to the star subject: Science!

We hope you find these unique combos of science-forward resources and children's fiction incorporating scientific facts as a new way to engage your students in discovering the fascinating world of science, its relevance to their daily lives, and the opportunities that Science and STEM present for fantastic future careers!

Even after more than 4 decades of creating educational and entertaining educational resources, at Gallopade we always say, "We're just getting started!" And when it comes to being your science partner, this is especially true. Science is too essential and spectacular to be boring.

We hope these materials spark interest and understanding in your students, as well as the desire to wear a lab coat someday! So many significant aspects of science blend seamlessly with social studies, tech skills, inspired research and experimenting, problem-solving

skills, critical thinking, civic-mindedness, and so much more.

Our goal is to educate AND entertain your students, help them practice for success, and meet notable scientists from so many backgrounds who have paved the way for them to become scientists themselves!

We hope you find these materials engaging, accurate, all-encompassing, aspirational, and inspirational.

Lifelong learning about science begins here.

“Nothing will inspire students to develop a love of science as much as the events of the Covid-19 pandemic, renewed activity in space exploration, the impact of global warming, and even more from beyond today's headlines. Now is the time to encourage kids to incorporate science studies as part of their lifetime learning.”

'DIG IN' to Dino-mite Adventures Around the World - and BACK IN TIME!

This new 8 book series invites readers to join James Bone on an epic hunt to find dinosaur fossils for show-and-tell! Each book follows the adventures of James as he digs through a new assignment at a famous archaeological site. Along with his friends Pick, Shovel, and his dog Diggy, they uncover more than just fossils - thanks to friendship, cooperation, and a little bit of luck, they discover the tools needed to solve any problem. James proves that with perseverance, persistence, and patience - he always completes his mission. And despite a rather 'bone-headed' nemesis - James always gets his bone!
